OBJECTIVE

Motivated MCA student with a strong interest in Data Science and Data Analytics. Actively developing skills in Python, programming, data analysis, and problem-solving through academic projects and NPTEL coursework, focused on building strong practical technical skills.

Technical Skills

Operating Systems: Windows, Linux (Ubuntu basics)
Languages: Java, Python, C/C++ ,SQL
Framework: Django
Concepts: DSA(Basic), OOPs.
Data Science & ML: NumPy, Pandas, Matplotlib, Seaborn, Scikit-learn, PowerBI
Databases: SQLite
Developer Tools: Git&Github , Visual Studio, Jupyter notebook

Projects

AI Powered Job Recommendation Platform | HTML, CSS, JavaScript, Bootstrap, Django, Python, SQLite, ML March 2026
Developed an AI-based job portal that provides personalized job recommendations using **NLP** and machine learning techniques.Implemented resume parsing using **PyPDF2 and applied TF-IDF with cosine similarity** for job matching.

- Built full-stack functionality with Django, including login authentication(**Google & Github Login**), dashboards, and job application tracking using **Django ORM**.
- Integrated AI-based interview module using **OpenCV** for face detection and dynamic interaction.
- Designed responsive UI using Bootstrap and integrated **Chart.js and Google Maps** for analytics and location features.

Foodify – Online Food Ordering System| HTML, CSS, JavaScript, Bootstrap, PHP, MySQL Phpmyadmin April 2025
Developed a web-based food ordering system that allows users to browse food items, place orders, and manage order details through a simple and responsive interface.

- Enabling users to browse menus and place orders efficiently - designed a responsive UI ensuring smooth user interaction across devices Implemented server-side logic using PHP for secure order handling and session management.
- Integrated **Razorpay payment gateway** for secure online transactions and optimized MySQL database queries to improve performance and data retrieval speed.

Cruisers of the Global Fleet | HTML, CSS, JavaScript, Java, JSP, MySQL Dec-Jan 2025
Built a cruise management web application enabling users to explore cruise details and manage booking data through a structured frontend-to-backend workflow.

- Integrated MySQL database for storing user, cruise, and booking information efficiently.
- Implemented REST-like architecture with JSP and JDBC for efficient server-side processing

Education

INDIRA COLLEGE OF ENGINEERING AND MANAGEMENT SPPU, Pune
Master of Computer Applicatons **CGPA-9.08** March 2026 – Present

Vimal Tormal Poddar BCA and Commerce College VNSGU,Surat
Bachelor of Computer Applicatons ,**CGPA-7.25** Dec 2022 – Feb 2025

Sunrise Vidyalaya (GSEB) Surat
HSC -Gujarat Board , **70.28 %** March 2022

Suman HighSchool No – 11(GSEB) Surat
SSC - Gujarat board , **60.33**% March 2020

CERTIFICATIONS

Python for Data Science – Certificate from NPTL(SWAYAM, Govt. of India)
Python for Data Analytics - Certificate from NPTL(SWAYAM, Govt. of India)
Communication Skills, Personality Development And Etiquette - VNSGU
Program with PL/SQL - HackerRank
Python - HackerRank

CO – CURRICULAR ACTIVITIES

Active participation in Cultural event - Ramotsav

Hobbies

- Enjoying cricket both playing the sport
- Listening to music, exploring diverse genres, and watching movies and web series.
